Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 12, drawn to aggregate of eyeballs of a crustacean, and methods of using and producing the same.

Group II, claim(s) 10 and 13, drawn to a process for producing an aggregate of eyeballs of a crustacean using a vibrating sieve.

Group III, claim(s) 11 and 14, drawn to a process for producing a highly-pure aggregate of eyeballs of a crustacean which requires the removal of foreign matter with a wind grading machine or an inclined grading machine.

The inventions listed as Groups I, II, III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the processes of producing an aggregate of eyeballs requires different process steps for each of Groups I, II and III.

Furthermore, the amount of water content is required to be much less for Groups II and III which means that different steps are being carried out to practice the claimed

inventions. All that is required of Group I is heating and releasing and there is no requirement for a percent decrease in water content as for Groups II and III.

The special technical features of the process steps are different and not linked to a special technical feature because it is the process steps which must distinguish over a prior art reference. Clearly a reference which reads on Group I will no necessarily read on Groups II and III because different process steps are required by each Group for producing an aggregate of eyeballs which also indicates that the end product, an aggregate of eyeballs, can be different as well in each of the Groups I, II and III.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DEBBIE K. WARE whose telephone number is (571)272-0924. The examiner can normally be reached on 9:30-6:00.
